

# Thái Trọng Tín

- ▶ Study as Electronics Engineer at BachKhoa University
- ▶ Interested at Embedded System Design
- ▶ Capable in working in team or alone

## Skills

C++

Orcad

Proteus

ModelSim

## Language

English (TOEIC: 770)

French (DELFI B1)

Japanese (Beginning)

## CONTACTS INFO

Phone: (+84) 90 378 1195

Email:  
trongtin271195@gmail.com

Address: 73, Nơ Trang Long,  
F11, Q.Bình Thạnh, TP.HCM

Date of birth: 27/11/1995

## Education

2013/09 - Now

**BachKhoa University, HoChiMinh City**

Faculty of Electrical & Electronics Engineering

Departement of Electronics

Last year student, GPA of 7.6

## Embedded Project:

### ▶ Digital door lock

MicroController: PIC 16F873

Detail: lock/unlock door by servo and control with LCD and button.

### ▶ Vehicle warning system

MicroController: Atmega328

Detail: determined location by GPS module and alert when get out position.

### ▶ House warning system with GSM

MicroController: Atmega328

Detail: receive signal from sensor and warning to user by SMS and phone call. Using RF to communicate between microcontroller and sensor, and also can learn the sensor's RF signal

## ▶ Hobbies

Reading, listen to music, enjoying good food v.v.
